

Pathfinder

a guide to finding materials

LGBTQ+ Health

The Lesbian, Gay, Bisexual, Transgender and Queer + (LGBTQ+) community includes members of every race, ethnicity, religion, mental capacity, physical ability/disability, age, and socioeconomic group. The LGBTQ+ community shares the health concerns of the rest of the population, and they face a number of additional health risks such as discrimination, HIV infection, and healthcare disparities.

This pathfinder highlights some of the many resources available on this topic at the Christiana Care Medical Libraries.
