

For the health and safety of our patients and caregivers, ChristianaCare has visitor restrictions in place to prevent the spread of the COVID 19 virus. Visitation policies may change due to the rate of community spread of the virus. Visitation policies may differ between patients who may have COVID-19* and those receiving care for other reasons.

Please note:

- Patients may have one visitor daily between the hours of 11 a.m. and 7 p.m. For your safety, this means one individual person may visit per day. For the safety of our patients, visitors may not go in and out of the hospital or switch places with another visitor.
- Visitors must remain masked at all times while in the hospital.
- Visitation is limited to those 16 years of age or older.
- All support persons/visitors are screened for COVID-19 symptoms and are not permitted entry if they fail the screening procedure.
- All support persons/visitors receive a visitor badge.
- Visitation privileges may be discontinued at any time based on the patient's clinical situation, visitor noncompliance or other factors.

All support persons/visitors should:

- Follow masking guidelines, respiratory hygiene, and cough etiquette precautions while in the common areas of the facility.
- Bring cloth or other masks from home if possible. If not masked upon arrival, a mask will be provided.
- Respect social distancing of at least 6 feet as much as possible, including in the patient's room.
- Perform hand hygiene frequently with soap/water or alcohol-based hand sanitizer and limit surfaces touched.
- Remain in the patient's room to the extent possible.

Thank you for being a partner in your care.

**Because of the risk to visitors of COVID-19 exposure, visitors are not permitted for suspected or confirmed COVID-19 patients, with limited exceptions. If you have questions, please speak with your nurse.*
