PHILANTHROPY IS PERSONAL
people give to what's closest to their hearts.

WHAT'S YOUR WHY?

ChristianaCare
As the largest health system and employer in Delaware, we impact thousands of lives every day in our hospitals, provider offices and community.

Our donors are inspired by their experiences with ChristianaCare. You give because of the excellence reflected in our mission and caregiving. You support us because you know we provide advanced, patient-focused care when and where you need it most — and with our commitment to health equity, we aim to ensure equitable care for all our neighbors.

We do so for the love of health — your health, your family’s health and our community’s health.

YOUR WHY MATTERS

691,339 outpatient visits
57,046 hospital admissions
312,996 primary care visits (50,615 of them virtual)
$45.1M uncompensated charity care and other care

ChristianaCare is a nonprofit health system. Unrestricted gifts to our programs and services are among the most meaningful types of support.

Unrestricted funds allow us to respond swiftly to urgent, unexpected health crises — like we’ve done during the pandemic with test and vaccination services, telehealth and COVID-19 treatments. They help us maintain a focus on health equity and solve the critical needs of our neighbors. They allow us to pursue innovations, create new approaches to care and advance research discoveries that make a tangible difference in patient care, experience and outcomes.
One of the most advanced cancer centers nationwide, our Helen F. Graham Cancer Center & Research Institute battles cancer at patient bedsides and in our research labs with state-of-the-art technologies and breaking discoveries. Using a team-based approach, our specialists provide treatments tailored to patients’ specific cancers and unique needs in ways that are the least disruptive to their lives.

148,917 patient visits
2,876 first-time patients
814 patients on clinical trials

We fight cancer with care and discovery.
"I give because of the exceptional care my wife received and the meaningful relationship we developed with her caregivers."
