NAVIGATION COMMANDS

"accept defaults"  
"field complete"  
"new line"  
"new paragraph"  
"next field"  
"previous field"  
"first field"  
"last field"  
"start of field"  
"end of field"  
"go to end of paragraph"  
"go to end of sentence"

WORK EfficientLY

- Use ‘Add Word’ to add a word.
- Use your voice instead of keyboard or mouse to perform certain tasks.
- You can place the cursor in the middle of text and then record/type to insert new text.
- Say “What Can I Say” for a list of all available commands.
- Pause slightly after pressing the record button to ensure that the microphone is ready for your voice.
- If single words are not being recognized correctly, try to avoid correcting one word at a time; delete the whole phrase and say it again.
- Say “open settings” to configure hotkeys and microphone buttons.
- Use the buttons on your microphone to initiate actions.

TIPS

**Pause slightly** after pressing the record button to ensure that the microphone is ready for your voice.

- If single words are not being recognized correctly, try to avoid correcting one word at a time; delete the whole phrase and say it again.
- Say “open settings” to configure hotkeys and microphone buttons.
- Use the buttons on your microphone to initiate actions.

AUTO-TEXTS (MACROS)

<table>
<thead>
<tr>
<th>Command</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>“Manage auto-texts”</td>
<td>View, edit &amp; add personal auto-texts</td>
</tr>
<tr>
<td>“Make that an auto-text”</td>
<td>Makes any highlighted text into an auto-text</td>
